(2025 - current)
SOUTHEAST ASIA UNIVERSITY

Bachelor of Technology (Digital Technology
and Innovation)

SKILLS

- Developer Skills: Flutter (Learning), Dart, Responsive Design, HTML, CSS
- Tools & Automation: n8n (Workflow Automation), Telegram API, GitHub, VS Code
- Other Interests: AI Agent, Martech, Customer Data Platform (CDP)

ALL PROJECTS

N8N PROJECT

ABOUT ME

""A 3rd-year Digital Technology student with a strong interest in Web/Mobile development and Workflow Automation. Passionate about learning AI Agents, Chatbots, and Martech stacks. Experienced in creating automated notification workflows using n8n connected with APIs. Eager to apply logical thinking and technical skills to grow as an intern."

EXPERIENCE

(Nov 2025 - Feb 2026)
DOHOME PUBLIC COMPANY LIMITED
IT Support (Internship)

- Assisted in troubleshooting and maintaining hardware, software, and network issues for internal users.
- Provided technical assistance and customer service with a strong willingness to problem-solve.
- Gained practical experience in real-world IT operations and collaborative teamwork.

SELECTED PROJECTS

Cake Shop Application

- Developed a mobile application using the Flutter framework to practice organizing clean and systematic file structures.
- Utilized Git commands to manage and push project source code to a personal GitHub repository.

Telegram Automation Workflow (n8n)

- Designed and implemented an automated messaging and notification system using n8n (Workflow Automation Platform).
- Successfully integrated with Telegram API to trigger dynamic and scheduled alerts based on user system data and exam reminders.
- Developed strong logical thinking, workflow architecture, and basic API communication skills.
